

## REFERENCE

# Mercedes World, Berlin / Germany

### Application Field

- Floor coating
- Floor coating – slip-retarding systems
- Floor coating –decorative systems

### Structure Type

- Retail trade / sales rooms
- Office and administration buildings
- Exhibition surfaces
- Other buildings

### Brief Description

With the group's flagship, Mercedes World in Berlin, this Mercedes Benz branch office has a site that has successfully transformed the concept of combining a car dealer showroom with a brand and event centre. Around 350 cars are presented on an exhibition surface 14,000 m<sup>2</sup> in size.

### Main Problem and Requirements

Even though it was only opened 10 years ago, the exhibition rooms were to be redecorated. The presentation surface for the Mercedes AMG automobiles were to be decorated in a shade of white that only Remmers could offer.

### Client

Mercedes Benz AG, Berlin
