

## REFERENCE

# Noah's Arc Resort, Bafra, North Cyprus

### Application Field

- Waterproofing buildings –new construction with ground contact

### Structure Type

- Hotels
- Swimming pools / wellness facilities

### Brief Description

The hotel, Noah's Arc Resort, is located in the Turkish part of Cyprus in the coastal city of Bafra. The hotel was constructed to look like the biblical Noah's Arc. This hotel, which is probably unique the world over, has 1250 beds. During the construction of the hotel, a total of 38,000 m<sup>2</sup> of building elements with ground contact were waterproofed with Spray-On Waterproofing 2K. Further waterproofing measures were carried out on the swimming pools.
