Brief Description

Restoration of a commercial building on the Grand Silk Road, one of the oldest trade routes in the world. Different production areas such as a butcher's and a tea processing operation are situated in the building.

Main Problem and Requirements

Restoration of the facade as well as restoration of the concrete pillars. The floor, which is subjected to heavy loads, was given a completely new coating.

Client

Bereketli, Ashgabad

Installer

Bereketli, Ashgabad
